ELISA kit for the detection of Endothelin 1 in the research laboratory

More information

Name:	ELISA kit for the detection of Endothelin 1 in the research laboratory
Product group:	Kits
Product Number:	ABCA0131171
Price	Please Enquire
Quantity:	96 Wells
Type of Kit:	ELISA
Non Confirming product:	replace the product at no cost.

Description:

Recently, novel, smooth muscle constricting 31 amino acid endothelins (ETs), ETs (131) were discovered. ETs (131) are generated from big endothelins through the specific cleavage of the Tyr31 to Gly32 bond by human chymase. In addition, it may be transiently generated by other chymotrypsin-type proteases, such as human cathepsin G in granulocytes and rat mast cell chymases. ETs (131) exhibit equivalent or lower contractile potencies in comparison with the 21 amino acid endothelins, ETs (121), and the effects are dependent on species, vessel type and vessel size.

Application	
Applications:	ELISA
Application notes:	Optimal conditions to be determined by end user
Research area:	Caveolae Markers

Product Information

Form: 1% BSA, 0.05% Tween 20 in PBS

Storage: Store at 2-8 deg C
