HIV-2 Envelope protein (Liquid. Supplied in 6 M urea.)

More information

Name:	HIV-2 Envelope protein (Liquid. Supplied in 6 M urea.)
Product group:	Proteins
Product Number:	ABCA0687510
Price:	Please enquire
Quantity:	100 µg
Purified (Y/N):	Yes
Loading control (Y/N):	No

Description:

HIV-2 Envelope protein.This antigen is an E. coli-derived recombinant protein thatcomposes all of the reported immunogenic determinantsfound in gp36. The gene encoding this fusion protein wassynthesized using codons optimized for E. coli expressionand doesnt represent a linear HIV-2 envelope sequence.rHIV-2 is a non-glycosylated, 135 amino acid polypeptidechain, having a molecular mass of 16.1 kDa.Recombinant HIV-2 Envelope is purified by proprietarychromatographic technique.HIV belongs to the retrovirus family, distinguished bypossession of a viral reverse transcriptase that transcribesviral RNA into DNA which is integrated into the host-cellgenome.gp36 is the transmembrane envelope protein from HIV-2comparable to gp41 from HIV-1.

Notes:

HIV-2 Envelope protein.This antigen is an E. coli-derived recombinant protein thatcomposes all of the reported immunogenic determinantsfound in gp36. The gene encoding this fusion protein wassynthesized using codons optimized for E. coli expressionand doe

Product Information

Purity note:	Greater than 97% by SDS-PAGE and RP-HPLC
Form:	Liquid. Supplied in 6 M urea.
Storage:	Store at -20°C.
Restriction:	This product is for research use only
